DIPLOMA IN

# COMPLETE DECONGESTIVE THERAPY

MEMBER OF WCPT

World Confederation  
for Physical Therapy

This Diploma Degree is granted by:

**FH | JOANNEUM**  
University of Applied Sciences  
AUSTRIA

## Complex (Complete) Decongestive Therapy Course

Known as MLD & CDT (Manual Lymph Drainage & Complete Decongestive Therapy)

**Complete Decongestive Therapy (CDT)** is embedded in a fully holistic concept and is recognized as today's basis for conservative Lymphoedema treatment. Manual Lymphatic Drainage (MLD) is a significant part of CDT, but it is primarily the practical combination of the further measures that makes CDT an effective, direct and comprehensive treatment of Lymphoedema. As a technique, CDT originated in Germany, and as a present west European countries are more advanced in CDT (Germany, Austria, France and USA).

Many studies have demonstrated the effectiveness of CDT for improving Lymphoedema symptoms such as swelling and pain. CDT is considered as the gold standard of treatment for Lymphoedema.

**OUR CDT COURSE IS ONE OF THE MOST ADVANCED COURSES IN THIS FIELD, INSISTING ON THE METICULOUS KNOWLEDGE ACHIEVEMENT FOR ANY SINGLE STUDENT.**

When you obtain your diploma after completing our three modules, you will be capable of treating your patient, or to perform the Manual Lymph Drainage, at the clinic or spa for a healthy society (DETOXIFICATION), one of the most relaxing treatments available. Most importantly, you will be properly trained with the possibility to recognize and avoid any malpractice or mistreatment situations of your patient/client.

**Course Instructor: Mr Semir Bakija**

Mr. Semir is a certified international instructor in MLD / CDT from the University of FH Joanneum, Austria. He has been an MLD / CDT therapist for the past 11 years. He established the first lymphatic clinic in a government institution at Rashid Hospital, before he moved out to become the clinical director at Get on Track Clinic in Dubai. In his career Semir has treated a huge number of Lymphadema patients with great success.

**Course Venue:** Emirates Medical Association - Al Mamzar area, Dubai

**Our previous courses held in Dubai were accredited with 23.5 and 22 CME for Modules I and II.**
