PT, CMP, MCTA, BPTA  
Certified Mulligan Teacher  
Member of Mulligan Concept  
Teacher Association from  
Mulligan Institute, Rio, Brazil.

**CME  
Applied**

The Certified Mulligan Practitioner (CMP) program consists of four workshops followed by an exam. Each workshop is made up of 2 days (16 hours) of hands-on lab training. CMP advance is 2 days followed by the CMP Exam. All courses include considerable hands on learning experience; self-treatment concepts, taping, and sound clinical reasoning to apply mobilization with movement on patients. Participants can expect to be provided with research information and evidence based medicine in the applying these manual therapy techniques developed by Brian Mulligan. This unique approach to manual therapy was discovered and developed by Brian Mulligan F.N.Z.S.P. (Hon), Dip. M.T. from Wellington, New Zealand. This simple yet effective manual approach addresses musculoskeletal disorders with pain free manual joint “repositioning” techniques for restoration of function and abolition of pain. Each workshop will provide a learning environment where the therapists can train and practice to deliver appropriate manual therapy techniques for the Spine and extremities.

Course	Date	Registration fees	
<b>CMP A:</b> Upper Quarter – Peripheral Joints, Cervical and Thoracic Spines	28 & 29 Sep 2018	OMTG-UAE EPS Non-Member	AED1575 AED 1785 AED 2100
