VENUE : EMIRATES MEDICAL ASSOCIATION – DUBAI ALMAMZAR AREA

LEVEL 1: 8-11 SEPTEMBER 2017

LEVEL 2: 13-16 OCTOBER 2017

OMTC IS THE OFFICIAL PROGRAM OF THE OMTA.

Course description:

The aim of this program is to provide physiotherapists and medical doctors with clear and simple clinical reasoning framework that could be easily and logically used to apply a wide range of assessment and treatment techniques for patients with musculoskeletal conditions.

Program Objectives:

- 1-Critically discuss and apply relevant neuro-musculoskeletal theories, concepts and Evidence.
- 2-Critically evaluate the effectiveness of Manual and Movement Therapy interventions, integrating the evidence base relevant to the management & rehabilitation of neuro-musculoskeletal disorders.
- 3-Critically discuss the importance of patients' expectations, regarding their role in, and their Engagement with their therapy in recovery.
- 4-Ability to extract evidence from research and appraise research quality - Critically reflect on own ability to manage patients with neuro-musculoskeletal problems.
